

PRO PUBLICO BONO.

DR. BROWNE respectfully informs his Friends and the Public, that he still continues to dispose of his Specific Medicines, infallible for curing the Venereal Disease, Scurvy, and all Disorders arising from the Impurities of the Blood.

4 JY 63
They with Ease and Safety radically cure every Degree of the Venereal Disease, without the least Inconveniency or Hindrance of Business, or leaving the smallest Remains of the Disorder after the Cure; and will retain their Virtue in any Climate for many Years. Sold at Four Shillings a Packet with proper Directions. In a slight contracted Case, One Packet is sufficient to perform a Cure.—The Doctor is so sure of the Efficacy of these Medicines, (from the various repeated Trials he has made in a Number of different Cases) that even in the most obstinate Venereal Malady, if a few Packets doth not perfectly cure the Patient, he pre-engages to deliver them what is further necessary without any Payment. In cases requiring Operations of Surgery, the Doctor performs it GRATIS.—These Medicines entirely remove those flying pains occasioned by the too immoderate use of Mercury, and likewise the bad Effects arising from Venereal Disorders not being well cured. To prevent any Counterfeits, they are sold by the Doctor only, at No. 2, in Dufour's-Court, Broad-Street, Cornaby-Market. Name on the Door. Where Persons of both Sexes labouring under any Disorders may be cured by applying to him. Attendance every Day from Eight o'Clock in the Morning till Two, and from Four till Eight at Night.

N. B. Advice and Electricity to the Poor (Gratis) every Morning.
